

## STOP MALARIA – GAMBIA - SERREKUNDA

### Malaria situation in the district

**Date of the investigation:**

**Name of the health promoter**

*This investigation is going to be presented to those habitants which voluntarily decide to collaborate with the "STOPMALARIA" campaign. The goal of this investigation is to know the malaria situation in the district. The main interest is to make work a medical research of sensitize and prevention.*

**1. Number of people living in the house**

n.

- how many children of 0-5 years

n.

- how many children of 6-14 years

n.

- how many pregnant women

n.

**2. How many people were affected by malaria during the last 12 months?**

n.

**3. Which prevention methods do you know?**

**4. Which prevention methods do you use?**

**5. Can you describe malaria signs and symptoms?**

**6. If you catch malaria, who is going to take care of you? Where?**

• **Traditional medicine** (specify if it's about Marabouts, a healer, look for plants, ecc.)

• **Modern medicine** (specify if it's a Health center, a hospital and also specify the medicine name)

• **Specify other way to take care of you:**

- **Being at home without doing anything**

- **Taking medicine without consultation (specify medicine name)**

*Proposal: to have a good end of this campaign, we need the maximum of voluntary people to be envolved. Is there anybody in the house who's going to help us voluntarily?*
